Eveready East Africa Plc
Report of the directors
For the year ended 30th September 2021

The directors submit their report together with the audited financial statements of the group and of the company for the year ended 30th September 2021.

Incorporation

The company is domiciled in Kenya where it is incorporated as a public company limited by shares under the Kenyan Companies Act, 2015. The address of the registered office is set out on page 1.

Directorate

The directors who held office during the year and to the date of this report are set out on page 1.

Principal activities

The principal activities of the group are those of selling imported dry cell and car batteries and trading in an assortment of flashlights, range of bulbs, washing detergents and tyres.

Recommended dividend

The directors do not recommend the declaration of dividend for the year (2020: Nil).

Business review

Our business

EVEREADY East Africa PLC (the “Company” or “EVEREADY”) is a consumer goods company focused on providing branded portable power solutions packaged to consumers in Kenya. The Company is headquartered in Nairobi, Kenya. The Company provides portable power solutions in Kenya was founded in 1967 and is listed in the Nairobi Securities Exchange.

The Company operates in three segments automotive, lighting and household. The Company sells its products in Kenya primarily through automotive dealers, hypermarkets, wholesalers, electronic stores, institutions, retail stores, petrol stations, high-frequency stores, and e-commerce.

Automotive

The Company offers maintenance free car batteries, vented car batteries, battery water and battery acid in its automotive segment under the brands TURBO® and TURBOPlus+®

Household

The Company offers dry cell batteries in sizes ‘D’ ‘AA’ ‘AAA’ ‘9V’, ‘C’ and miniature in carbon zinc, alkaline batteries, lithium, and rechargeable constructions. The products under this segment are traded under the brands TURBO® and TURBOPlus+®. This segment also includes the company’s fabric care segment under the brand EVERCLEAN® and, motor vehicle tyres under the brand name FALKEN TYRES®.

Lighting

The Company offers flashlights, lanterns, and bulbs under the brands TURBO® and TURBOPlus+®.

Performance

Gross turnover reduced by 33% during the financial year to KSh 89.8 million down from KSh 133.5 million achieved in 2019/2020.

Risks

Our business is subject to various risks and uncertainties. Highlighted below are some of the key risks to our business. These are risks that we consider to be material to Eveready’s business at this moment in time. We recognize that there could be emerging risks in future.

i) **Supply chain**

Our business depends on the timely distribution of products to our consumers. Potential hazards to the supply chain include long lead times and disruption or loss of key suppliers. The underlying materials from which our products are subject to cost fluctuations which affects our margins as the component cost fluctuations cannot always be passed on to the consumers.

Business review (continued)

Risks (continued)

ii) **Quality products**

Product defects arising out of equipment failure or human error cannot be ignored.

iii) **Economic, political risks and natural disasters**

Consumer demand is weakened by adverse economic conditions. We are exposed to economic, social and political volatility.

iv) **Systems and information**

Increasing our digital interaction with our consumers and the supply chain partners (trade) require secure and reliable IT systems and infrastructure. It is also crucial that we manage the information that we possess correctly and carefully. Unauthorized access failure of our IT systems and lack of effective use of information could disrupt our business, result in loss of assets and missed opportunities.

v) **Portfolio management**

Our growth is determined by our range of products (portfolio categories) that evolve over time. If we do not make optimal decision on these our margins and revenues will be affected.

vi) **Ethical**

The way we operate contributes to our society. Despite our commitment to ethical business and the steps that we take to adhere to this commitment there is always the risk that we fall short of our standards which may result to damage of our corporate brand and results.

vii) **Brand preference**

Consumers preferences are continuously changing. Our ability to respond to these changes and our ability to differentiate our products remains key. We have to continuously innovate to meet the needs of our consumers and if we are unable to do this successfully it will impact our revenues and margins.

viii) **Legal and regulatory**

Eveready is subject to local and regional laws and regulations in various areas to include taxes, listing and disclosures obligations, competition, licensing, trademarks, employee health and safety, corporate governance and employment. Failure to abide by these laws and regulation exposes Eveready to civil and/ criminal actions which may lead to fines and sanctions with associated blight to our corporate reputation.

ix) **Business transformation**

Our transformation projects are ongoing and they drive our continuous improvement agenda. Excellence in execution as well as speed of execution remain key. Unsuccessful execution deny us the intended benefits of a project and may disrupt our business.

Statement as to disclosure to the company's auditor

With respect to each director at the time this report was approved:

- (a) there is, so far as the director is aware, no relevant audit information of which the company's auditor is unaware; and
- (b) the director has taken all the steps that the director ought to have taken as a director so as to be aware of any relevant audit information and to establish that the company's auditor is aware of that information.

Terms of appointment of the auditor

The directors approve the annual audit engagement contract which sets out the terms of the auditor's appointment and the related fees. The agreed auditor's remuneration of KSh 750,000 has been charged to profit or loss in the year.

By order of the board

.....
Director

Nairobi 8th February 2022

Eveready East Africa Plc
Directors' remuneration report
For the year ended 30th September 2021

Section 1- Not subject to audit

a) Decisions on directors' remuneration

Due to the continued financial challenges facing the company, the directors resolved to retain the fifty percent deduction in directors remuneration.

b) Company policy on directors' remuneration

The company's policy is to remunerate directors and executives fairly and responsibly. The remuneration policy is aligned with the company's strategy and linked to annual performance. The board nomination and remuneration committee is responsible for setting and administering the remuneration policy.

Directors are entitled to a basic quarterly fee and sitting allowance for each Board meeting and/or official company function attended. Directors are entitled to company transport when attending board meetings or company functions outside their regular areas of residence. A director who for any reason uses his/her own private vehicle is entitled to a mileage claim.

These are payable at the following rates:

Title	Director's Fees Quarterly (KSh)	Allowance per Sitting (KSh)	Mileage Claim per KM (KSh)
Board Chairperson	300,000	25,000	39.4
Committee Chairperson	135,000	25,000	39.4
Director	135,000	20,000	39.4

c) General terms of service

Directors shall generally be elected at the annual meeting of shareholders for three-year terms, to serve until the annual general meeting of shareholders occurring at the end of that term. From time to time, directors may be nominated by the Board to serve less than three-year terms if the board believes there is valid purpose for such shortened terms, for example, in order to equalise the number of directors in each class elected.

If a director is elected between annual meetings of shareholders, the initial term of any such director shall expire at the next annual meeting of shareholders.

Nairobi **8th February** 2022

Eveready East Africa Plc
Statement of directors' responsibilities
For the year ended 30th September 2021

The Kenyan Companies Act, 2015 requires the directors to prepare financial statements for each financial year that give a true and fair view of the financial position of the group and of the company as at the end of the financial year and of their profit or loss for that year. It also requires the directors to ensure that the company keeps proper accounting records that: (a) show and explain the transactions of the company; (b) disclose, with reasonable accuracy, the financial position of the company; and (c) enable the directors to ensure that every financial statement required to be prepared complies with the requirements of the Kenyan Companies Act, 2015.

The directors accept responsibility for the preparation and presentation of these financial statements in accordance with International Financial Reporting Standards and in the manner required by the Kenyan Companies Act, 2015. They also accept responsibility for:

- i) designing, implementing and maintaining such internal control as they determine necessary to enable the presentation of financial statements that are free from material misstatement, whether due to fraud or error;
- ii) selecting suitable accounting policies and applying them consistently; and
- iii) making accounting estimates and judgements that are reasonable in the circumstances.

The directors acknowledge that the independent audit of the financial statements does not relieve them of their responsibilities.

Approved by the board of directors on **8th February** 2022 and signed on its behalf by:

Director

**REPORT OF THE INDEPENDENT AUDITOR
TO THE MEMBERS OF EVEREADY EAST AFRICA PLC**
Qualified opinion
www.rsm.global/kenya

We have audited the accompanying financial statements of Eveready East Africa PLC (the "company") and its subsidiary (together, "the Group"), set out on pages 10 to 36, which comprise, for both the Group and the company, the balance sheet as at 30th September 2021, the statement of profit or loss and other comprehensive income, statements of changes in equity and cash flows for the year then ended, and notes, including a summary of significant accounting policies.

In our opinion, except for the possible effects of the matters described in the Basis for Qualified Opinion section of our report, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Group as at 30th September 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for qualified opinion

We draw attention to Note 26 in the financial statements, which indicates that the company incurred a net loss of KSh 34,691,000 (2020: KSh 69,010,000) during the year ended 30th September 2021; current liabilities exceeded current assets by KSh 35,853,000. As stated in Note 26, the company has not concluded negotiations on any strategic partnership or obtained adequate funding to meet its maturing obligations and fund its turnaround strategy. This situation indicates that a material uncertainty exists that may cast doubt on the company's ability to continue as a going concern. The financial statements do not adequately disclose this matter.

As stated on Note 18, the company continues to recognise deferred tax assets on provision for bad debts and obsolete inventories amounting to KSh 33,128,000 as of 30th September 2021. However, based on the assessment at the balance sheet date, the impaired assets may not be recoverable in the event that the company does not generate sufficient taxable profits to utilise any increase in tax losses.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the *International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants* (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Kenya, and we have fulfilled our ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How the matter was addressed
Existence and valuation of inventory	The group had inventory with a total carrying value of KSh 18.8 million at year end representing 16% of the total current assets. The procedures we performed included: • Attended at the inventory count to confirm operations of controls in place. We also performed a physical count to obtain evidence supporting existence of inventory. • Ensured correct application of the group's policy in determination of cost - (weighted average). • Confirmed that slow moving or obsolete inventory items are identified and adequate provision for inventory write-down is in place. • Ensured that inventory is stated at the lower of cost and net realisable value and corroborated any estimates made by management.

**REPORT OF THE INDEPENDENT AUDITOR
TO THE MEMBERS OF EVEREADY EAST AFRICA PLC (CONTINUED)**

Key Audit Matters (continued)

Recoverability of trade receivables	The group had trade receivables amounting to KSh 206 million, out of which KSh 184 million are deemed to be irrecoverable and therefore provided. Our procedures performed included the following: • Circularized key accounts to confirm balances outstanding at year end. • Performed alternative procedures where confirmations not received by checking subsequent receipts from customers after the year end. • Ensured there was adequate provision for expected credit losses for all financial assets in accordance with IFRS 9. • Examined the historical recovery records and current credit status of customers. • <u>Analysed the ageing of accounts receivable.</u>
Going concern	The company has been making losses over the last 5 years. The board approved a strategic plan for the turnaround of the company for the period 2018 - 2022. As per the strategic plan, the company had budgeted to attain sales amounting to KSh 1 billion in year 2019/2020, however it has only achieved KSh 133 million which represents 13% of the budget. The financial statements have been prepared on a going concern basis based on the implementation of the strategic plan. If the above strategic plan is not fully implemented, there would be a material uncertainty as to the company's ability to continue as a going concern and it may, therefore, be unable to realise its assets and discharge its liabilities in the normal course of business.

Other information

The directors are responsible for the other information. Other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon, other than that prescribed by the Kenyan Companies Act, 2015, as set out below.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Directors' responsibility for the financial statements

The directors are responsible for the preparation and fair presentation of the financial statements that give a true and fair view in accordance with International Financial Reporting Standards and the requirements of the Kenyan Companies Act, 2015, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

**REPORT OF THE INDEPENDENT AUDITOR
TO THE MEMBERS OF EVEREADY EAST AFRICA PLC (CONTINUED)**

Auditor's responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Group's consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other matters prescribed by the Kenyan Companies Act, 2015 (the Act)

In our opinion,

- i) the information given in the report of the directors on pages 3 and 4 is consistent with the financial statements; and
- ii) the auditable part of the directors' remuneration report has been properly prepared in accordance with the Act.

The engagement partner responsible for the audit resulting in this independent auditor's report is **CPA Elvis Ogeto**, Practising Certificate No. 2303.

Cash and cash equivalents at end of the year	21	29,444	67,621	29,444	67,621

NOTES

1. Summary of significant accounting policies

The significant accounting policies adopted in the preparation of these general purpose financial statements are set out below:

a) Basis of preparation

The financial statements are prepared on a going concern basis and in compliance with International Financial Reporting Standards (IFRS). They are presented in Kenya Shillings, which is also the functional currency of the company (see (c) below), rounded to the nearest thousand (KSh'000).

The directors have reached the decision to wind up Flamingo Properties Uganda Limited (the "subsidiary") due to the unprofitability of its operations. The financial statements for the subsidiary have been prepared on a basis other than that of a going concern.

The financial statements comprise a statement of profit or loss and other comprehensive income, balance sheet (statement of financial position), statement of changes in equity, and statement of cash flows. Income and expenses, excluding the components of other comprehensive income, are recognised in profit or loss. Other comprehensive income comprises items of income and expense (including reclassification adjustments) that are not recognised in profit or loss as required or permitted by IFRS. Reclassification adjustments are amounts reclassified to the profit and loss account in the current period that were recognised in other comprehensive income in the current or previous periods. Transactions with the owners of the company in their capacity as owners are recognised in the statement of changes in equity.

Measurement basis

The measurement basis used is the historical cost basis except where otherwise stated in the accounting policies below.

For those assets and liabilities measured at fair value, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When measuring the fair value of an asset or a liability, the company uses market observable data as far as possible. If the fair value of an asset or a liability is not directly observable, it is estimated by the company using valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs (e.g. by use of the market comparable approach that reflects recent transaction prices for similar items or discounted cash flow analysis). Inputs used are consistent with the characteristics of the asset / liability that market participants would take into account.

Fair values are categorised into three levels in a fair value hierarchy based on the degree to which the inputs to the measurement are observable and the significance of the inputs to the fair value measurement in its entirety:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Transfers between levels of the fair value hierarchy are recognised by the company at the end of the reporting period during which the change occurred.

NOTES (CONTINUED)

1. Summary of significant accounting policies (continued)

b) New and revised standards

i) Adoption of new and revised standards

Three Amendments to standards became effective for the first time in the financial year beginning 1st October 2020 and have been adopted by the company. None of the Amendments has had an effect on the company's financial statements.

ii) New and revised standards and interpretations which have been issued but are not yet effective

The company has not applied any of the new or revised Standards and Interpretations that have been published but are not yet effective for the year beginning 1st October 2020, and the Directors do not plan to apply any of them until they become effective. Note 27 lists all such new or revised standards and interpretations, with their effective dates, none of which is expected to have a significant impact on the company's financial statements in the period of initial application.

c) Translation of foreign currencies

On initial recognition, all transactions are recorded in the functional currency (the currency of the primary economic environment in which each entity operates).

Transactions in foreign currencies during the year are converted into the functional currency using the exchange rate prevailing at the transaction date. Monetary assets and liabilities at the balance sheet date denominated in foreign currencies are translated into the functional currency using the exchange rate prevailing as at that date. The resulting foreign exchange gains and losses from the settlement of such transactions and from year-end translation are recognised on a net basis in profit or loss in the year in which they arise.

d) Revenue recognition

Revenue represents the fair value of consideration received or receivable for the sale of goods and services in the course of the group's activities. It is recognised when it is probable that future economic benefits will flow to the company and the amount of revenue can be measured reliably. It is stated net of Value Added Tax, rebates and trade discounts.

Revenue from sales of goods is recognised when the goods are delivered and title has passed.

Interest income is recognised on a time proportion basis using the effective interest method.

All other income earned by the group is recognised in the period in which it is earned.

e) Borrowing costs

Borrowing costs, net of any temporary investment income on those borrowings, that are attributable to acquisition, construction or production of a qualifying asset are capitalised as part of the asset. The net borrowing cost capitalised is either the actual borrowing cost incurred on the amount borrowed specifically to finance the asset; or in the case of general borrowings, the borrowing cost is determined using the overall weighted average cost of the borrowings on all outstanding borrowings during the year less any specific borrowings directly attributable to the asset and applying this rate to the borrowing attributable to the asset. Capitalisation of borrowing costs ceases when all activities necessary to prepare the qualifying asset for its intended use or sale are complete. All other borrowing costs are recognised in the profit or loss in the year in which they are incurred.

NOTES (CONTINUED)

1. Summary of significant accounting policies (continued)

f) Income tax

Income tax expense is the aggregate amount charged/(credited) in respect of current tax and deferred tax in determining the profit or loss for the year. Tax is recognised in profit or loss except when it relates to items recognised in other comprehensive income, in which case it is also recognised in other comprehensive income, or to items recognised directly in equity, in which case it is also recognised directly in equity.

Current tax

Current tax is the amount of income tax payable on the taxable profit for the year, and any adjustment to tax payable in respect of prior years, determined in accordance with the Kenyan Income Tax Act.

Deferred income tax

Deferred tax is determined for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, using tax rates and laws enacted or substantively enacted at the balance sheet date and expected to apply when the asset is recovered or the liability is settled.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets or liabilities.

Deferred tax liabilities are recognised for all taxable temporary differences except those arising on the initial recognition of an asset or liability, other than through a business combination, that at the time of the transaction affects neither the accounting nor taxable profit or loss.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which temporary differences can be utilised. Recognised and unrecognised deferred tax assets are reassessed at the end of each reporting period and, if appropriate, the recognised amount is adjusted to reflect the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

g) Share capital

Ordinary shares are recognised at par value and classified as 'share capital' in equity.

h) Dividends

Dividends on ordinary shares are recognised as a liability in the year in which they are declared.

NOTES (CONTINUED)

1. Summary of significant accounting policies (continued)

i) Financial instruments

Initial recognition

Financial instruments are recognised when, and only when, the Group becomes party to the contractual provisions of the instrument. All financial assets are recognised initially using the trade date accounting which is the date the Group commits itself to the purchase or sale.

Classification

The Group classifies its financial instruments into the following categories:

- i) Financial assets that are held within a business model whose objective is to hold assets in order to collect contractual cash flows, and for which the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are classified and measured **at amortised cost**;
- ii) Financial assets that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and for which the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are classified and measured **at fair value through other comprehensive income**.
- iii) All other financial assets are classified and measured **at fair value through profit or loss**.
- iv) Notwithstanding the above, the Group may:
 - a) on initial recognition of an equity investment that is not held for trading, irrevocably elect to classify and measure it **at fair value through other comprehensive income**.
 - b) on initial recognition of a debt instrument, irrevocably designate it as classified and measured **at fair value through profit or loss** if doing so eliminates or significantly reduces a measurement or recognition inconsistency.
- v) Financial liabilities that are held for trading (including derivatives), financial guarantee contracts, or commitments to provide a loan at a below-market interest rate are classified and measured **at fair value through profit or loss**. The Group may also, on initial recognition, irrevocably designate a financial liability as **at fair value through profit or loss** if doing so eliminates or significantly reduces a measurement or recognition inconsistency.
- vi) All other financial liabilities are classified and measured at amortised cost.

Financial instruments held during the year were classified as follows:

- Demand and term deposits with banking institutions, trade and other receivables were classified as at amortised cost;
- Borrowings and trade and other liabilities were classified as at amortised cost.

Initial measurement

On initial recognition:

- i) Trade receivables are measured at their transaction price.
- ii) All other categories of financial assets and financial liabilities are measured at the fair value plus or minus transaction costs that are directly attributable to the acquisition or issue of the instrument.

NOTES (CONTINUED)

1. Summary of significant accounting policies (continued)

i) Financial instruments (continued)

Subsequent measurement

Financial assets and financial liabilities after initial recognition are measured either at amortised cost, at fair value through other comprehensive income, or at fair value through profit or loss according to their classification.

Interest income, dividend income, and exchange gains and losses on monetary items are recognised in profit or loss.

Fair value is determined as set out in Note 1(a). Amortised cost is the amount at which the financial asset or liability is measured on initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

Impairment

The Group recognises a loss allowance for expected credit losses on debt instruments that are measured at amortised cost or at fair value through other comprehensive income. The loss allowance is measured at an amount equal to the lifetime expected credit losses for trade receivables and for financial instruments for which: (a) the credit risk has increased significantly since initial recognition; or (b) there is observable evidence of impairment (a credit-impaired financial asset). If, at the reporting date, the credit risk on a financial asset other than a trade receivable has not increased significantly since initial recognition, the loss allowance is measured for that financial instrument at an amount equal to 12-month expected credit losses. All changes in the loss allowance are recognised in profit or loss as impairment gains or losses.

Lifetime expected credit losses represent the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses represent the portion of lifetime expected credit losses that result from default events on a financial asset that are possible within 12 months after the reporting date.

Expected credit losses are measured in a way that reflects an unbiased and probability-weighted amount determined by evaluating a range of possible outcomes, the time value of money, and reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

Presentation:

All financial assets are classified as non-current except financial assets at fair value through profit or loss, those with maturities of less than 12 months from the balance sheet date, those which the directors have the express intention of holding for less than 12 months from the balance sheet date or those that are required to be sold to raise operating capital, in which case they are classified as current assets.

All financial liabilities are classified as non-current except financial liabilities at fair value through profit or loss, those expected to be settled in the group's normal operating cycle, those payable or expected to be paid within 12 months of the balance sheet date and those which the group does not have an unconditional right to defer settlement for at least 12 months after the balance sheet date.

NOTES (CONTINUED)

1. Summary of significant accounting policies (continued)

i) Financial instruments (continued)

Derecognition/write off

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Group has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged or cancelled or expires.

Offsetting

Financial assets and liabilities are offset and the net amount reported in the balance sheet only when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

j) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average method and includes all costs incurred in bringing the goods to their present location and condition but excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

k) Cash and cash equivalents

Cash and cash equivalents include cash in hand and demand and term deposits, with maturities of three months or less from the date of acquisition, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, net of bank overdrafts. In the balance sheet, bank overdrafts are included as borrowings under current liabilities.

l) Provisions for liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

m) Equipment

All categories of equipment are initially recognised at cost and subsequently carried at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure directly attributable to the acquisition of the assets. Computer software, including the operating system, that is an integral part of the related hardware is capitalised as part of the computer equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that it will increase the future economic benefits associated with the item that will flow to the company over those originally assessed and the cost of the item can be measured reliably. Repairs and maintenance expenses are charged to the profit and loss account in the year in which they are incurred.

NOTES (CONTINUED)

1. Summary of significant accounting policies (continued)

m) Equipment (continued)

Depreciation is calculated using the straight line method to write down the cost or the revalued amount of each asset to its residual value over its estimated useful life.

Each part of an item of equipment with a cost that is significant in relation to the total cost of the item, is depreciated separately.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

Gains and losses on disposal of equipment are determined by reference to their carrying amount and are taken into account in determining operating profit.

n) Investment in subsidiaries

Subsidiaries are entities controlled by the company. The company controls an entity when it is exposed to or has rights to variable returns from its involvement with the entity and has an ability to affect these returns through its power over the entity. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the company controls another entity.

Subsidiaries are fully consolidated from the date at which the company starts controlling them and are de-consolidated from the date control ceases. Inter-company transactions, balances and unrealised gains or transactions between companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Where necessary, accounting policies of subsidiaries have been changed to ensure consistency with the policies adopted by the company.

The directors reached the decision to wind up Flamingo Properties Uganda Limited (the "subsidiary") due to unprofitability of its operations. The subsidiary is dormant and balances fully impaired at the balance sheet date.

Investments in subsidiaries are carried at cost less any accumulated impairment losses.

o) Impairment of non-financial assets

Non-financial assets that are carried at amortised cost are reviewed at the end of each reporting period for any indication that an asset may be impaired. If any such indication exists, an impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

p) Leases

Leases under which the company is the lessee

On the commencement date of each lease (excluding leases with a term, on commencement, of 12 months or less and leases for which the underlying asset is of low value) the company recognises a right-of-use asset and a lease liability.

The lease liability is measured at the present value of the lease payments that are not paid on that date. The lease payments include fixed payments, variable payments that depend on an index or a rate, amounts expected to be payable under residual value guarantees, and the exercise price of a purchase option if the company is reasonably certain to exercise that option. The lease payments are discounted at the interest rate implicit in the lease. If that rate cannot be readily determined, the company's incremental borrowing rate is used.

NOTES (CONTINUED)

1. Summary of significant accounting policies (continued)

p) Leases (continued)

For leases that contain non-lease components, the company allocates the consideration payable to the lease and non-lease components based on their relative stand-alone components.

The right-of-use asset is initially measured at cost comprising the initial measurement of the lease liability, any lease payments made on or before the commencement date, any initial direct costs incurred, and an estimate of the costs of restoring the underlying asset to the condition required under the terms of the lease.

Subsequently the lease liability is measured at amortised cost, subject to remeasurement to reflect any reassessment, lease modifications, or revised fixed lease payments.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and any accumulated impairment losses, adjusted for any remeasurement of the lease liability. Depreciation is calculated using the straight-line method to write down the cost of each asset to its residual value over its estimated useful life. If ownership of the underlying asset is not expected to pass to the Company at the end of the lease term, the estimated useful life would not exceed the lease term.

For leases with a term, on commencement, of 12 months or less and leases for which the underlying asset is of low value, the total lease payments are recognised in profit or loss on a straight-line basis over the lease period.

q) Short term employee benefits

The estimated monetary liability for employees' accrued annual leave entitlement at the balance sheet date is recognised as an employment cost accrual.

r) Post-employment benefit obligations

The Group operates a defined contribution retirement benefits plan for its employees, the assets of which are held in a separate trustee administered scheme managed by an insurance company. A defined contribution plan is a plan under which the company pays fixed contributions into a separate fund, and has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current or prior periods. The Group's contributions are charged to the profit and loss account in the year to which they relate.

The company and its employees also contribute to the National Social Security Fund (NSSF), a national defined contribution scheme. Contributions are determined by local statute and the company's contributions are charged to the profit and loss account in the year to which they relate.

NOTES (CONTINUED)

2. Significant judgements and key sources of estimation uncertainty

In the process of applying the accounting policies adopted by the Group, the directors make certain judgements and estimates that may affect the amounts recognised in the financial statements. Such judgements and estimates are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the current circumstances. However, actual results may differ from those estimates. The judgements and estimates are reviewed at each financial reporting date to ensure that they are still reasonable under the prevailing circumstances based on the information available, and any revisions to such judgements and estimates are recognised in the year in which the revision is made.

a) Significant judgements made in applying the Group's accounting policies

The judgements made by the directors in the process of applying the group's accounting policies that have the most significant effect on the amounts recognised in the financial statements include:

- i) Whether it is probable that future taxable profits will be available against which temporary differences can be utilised (see Note 18);
- ii) Classification of financial assets: whether the business model in which financial assets are held has as its objective the holding of such assets to collect contractual cash flows or to both collect contractual cash flows and sell the assets; and whether the contractual terms of financial assets give rise on specified dates to cash flows that are solely payments of principal and interest; and
- iii) Whether the company will be able settle its maturing obligations (see Note 26).

b) Key sources of estimation uncertainty

Key assumptions made about the future and other sources of estimation uncertainty that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year include:

- i) *Income taxes*
Estimates made in determining the income tax expense for transactions for which the ultimate determination of the income tax expense is uncertain in the ordinary course of business.
- ii) *Impairment losses*
Estimates made in determining the impairment losses on receivables. Such estimates include the determination of the net realisable value or the recoverable amount of the asset. The movement on the impairment provision is set out in Note 20.
- iii) *Net realisable value of inventory*
Estimates made in determining the net realizable value of inventory. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses and includes estimated selling price on products bundled as part of a sales promotion.

NOTES (CONTINUED)

3. Nature and extent of risks arising from financial instruments

a) Financial risk management

The Group's activities expose it to a variety of financial risks including credit, liquidity and market risks. The Group's overall risk management policies are set out by the board and implemented by the management, and focus on the unpredictability of changes in the business environment and seek to minimise the potential adverse effects of such risks on the group's performance by setting acceptable levels of risk. The Group does not hedge against any risks.

i) Credit risk and expected credit losses

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Credit risk mainly arises from financial assets, and is managed on a group -wide basis.

Credit risk on financial assets with banking institutions is managed by dealing with institutions with good credit ratings and placing limits on deposits that can be held with each institution. The Group carries out its own assessment of credit risk before investing in corporate bonds, and updates such assessments at each reporting date.

Credit risk on trade receivables is managed by ensuring that credit is extended to customers with an established credit history. The credit history is determined by taking into account the financial position, past experience and other relevant factors. Credit is managed by setting the credit limit and the credit period for each customer. The utilisation of the credit limits and the credit period is monitored by management on a monthly basis.

In assessing whether the credit risk on a financial asset has increased significantly, the Group compares the risk of default occurring on the financial asset as at the reporting date with the risk of default occurring on that financial asset as at the date of initial recognition. In doing so, the Group considers reasonable and supportable information that is indicative of significant increases in credit risk since initial recognition and that is available without undue cost or effort. There is a rebuttable assumption that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due.

For these purpose default is defined as having occurred if the debtor is in breach of contractual obligations, or if information is available internally or externally that suggests that the debtor is unlikely to be able to meet its obligations. However, there is a rebuttable assumption that that default does not occur later than when a financial asset is 90 days past due.

If the Group does not have reasonable and supportable information to identify significant increases in credit risk and/or to measure lifetime credit losses when there has been a significant increase in credit risk on an individual instrument basis, lifetime expected credit losses are recognised on a collective basis. For such purposes, the Company groups financial assets on the basis of shared credit risk characteristics, such as:

- type of instrument
- industry in which the debtor operates
- nature of collateral.

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit impaired include observable data about the following events:

- significant financial difficulty of the debtor
- a breach of contract
- it is probable that the debtor will enter bankruptcy
- the disappearance of an active market for the financial asset because of financial difficulties.

NOTES (CONTINUED)

3. Nature and extent of risks arising from financial instruments (continued)

a) Financial risk management (continued)

i) Credit risk and expected credit losses (continued)

The gross carrying amount of financial assets with exposure to credit risk at the balance sheet date was as follows:

Basis for measurement of loss allowance

<u>Group/Company</u>	12- months expected credit losses KSh	Lifetime expected credit losses (see note below)			Totals KSh
		(a) KSh	(b) KSh	(c) KSh	
At 30th September 2021					
Trade receivables	-	-	179,091	26,462	205,553
Other receivables	14,955	-	15,038	-	29,993
Related company receivable	-	-	53,102	-	53,102
Cash at bank	59,444	-	-	-	59,444
Gross carrying amount	74,399	-	247,231	26,462	348,092
Loss allowance	-	-	(247,231)	(4,902)	(252,133)
Exposure to credit risk	74,399	-	-	21,560	95,959
At 30th September 2020					
Trade receivables	-	-	183,197	17,903	201,100
Other receivables	20,257	-	15,038	-	35,295
Related company receivable	-	-	53,102	-	53,102
Cash at bank	77,850	-	-	-	77,850
Gross carrying amount	98,107	-	251,337	17,903	367,347
Loss allowance	-	-	(251,337)	(3,929)	(255,266)
Exposure to credit risk	98,107	-	-	13,974	112,081

Financial assets for which the loss allowance has been measured at an amount equal to lifetime expected credit losses have been analysed above based on their credit risk ratings as follows:

- a) financial assets for which credit risk has increased significantly since initial recognition but that are not credit impaired;
- b) financial assets that are credit impaired at the balance sheet date; and
- c) trade receivables, contract assets and lease receivables for which the loss allowance is always measured at an amount equal to lifetime expected credit losses, based, as a practical expedient, on provision matrices.

The loss allowances at the end of each year relate to the trade receivables, staff receivables and related company receivable.

The Group does not hold any collateral against the past due or impaired receivables. The management continues to actively follow up past due receivables.

No provision for expected credit losses was recognised on other receivables, cash in hand, financial assets and short term deposits since it was not considered material.

Eveready East Africa Plc
Financial statements

NOTES (CONTINUED)

3. Risk management objectives and policies (continued)

a) Financial risk management (continued)

i) Credit risk and expected credit losses (continued)

The age analysis of the trade receivables at the end of each year was as follows:

Group/Company

	Not past KSh'000	30 to 90 KSh'000	90 to 120 KSh'000	Over 120 KSh'000	Total KSh'000
At 30th September 2021	9,518	15,739	831	179,465	205,553
At 30th September 2020	11,475	19,821	5,568	164,236	201,100

The changes in the loss allowance during the year were as follows:

Year ended 30th September 2021

	12-month expected KSh'000	Basis for measurement of loss			Total KSh'000
		Lifetime expected credit losses (see note (a) KSh'000	(b) KSh'000	(c) KSh'000	
At start of year	-	-	198,235	3,929	202,164
Changes arising from receivables originating during the year	-	-	48,996	973	49,969
At end of year	-	-	247,231	4,902	252,133

Year ended 30th September 2020

At start of year	-	-	161,272	57,314	218,586
Changes arising from receivables originating during the year	-	-	36,963	(53,385)	(16,422)
At end of year	-	-	198,235	3,929	202,164

ii) Liquidity risk

Liquidity risk is the risk that the company will encounter difficulty in meeting obligations associated with financial liabilities. The board has developed a risk management framework for the management of the Group's short, medium and long-term liquidity requirements thereby ensuring that all financial liabilities are settled as they fall due. The Group manages liquidity risk by continuously reviewing forecasts and actual cash flows, and may consider banking facilities for future and likely shortfalls in the cash flows.

The table below summarises the maturity analysis for the financial liabilities to their remaining contractual maturities:

Group/company

	Less than one month KSh'000	Between 1-3 months KSh'000	Between 3-12 months KSh'000	Over 1 year KSh'000	Total KSh
At 30th September 2021					
Trade payables	40,480	-	-	-	40,480
Other payables and accrued expenses	32,115	-	-	-	32,115
Dividend payable	37,161	-	-	-	37,161
Borrowings	30,000	4,256	-	-	34,256
	139,756	4,256	-	-	144,012

NOTES (CONTINUED)

3. Risk management objectives and policies (continued)

a) Financial risk management (continued)

ii) Liquidity risk (continued)

Group/company

	Less than one month KSh'000	Between 1-3 months KSh'000	Between 3-12 months KSh'000	Over 1 year KSh'000	Total KSh
At 30th September 2020					
Trade payables	41,999	-	-	-	41,999
Other payables and accrued expenses	50,521	-	-	-	50,521
Dividend payable	37,161	-	-	-	37,161
Borrowings	10,229	3,202	-	-	13,431
	<u>139,910</u>	<u>3,202</u>	<u>-</u>	<u>-</u>	<u>143,112</u>

iii) Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market price and comprises three types of risks: currency risk, interest rate risk and other price risk.

Interest rate risk

The company is exposed to cash flow interest rate risk on its variable rate borrowings because of changes in market interest rates. The company manages this exposure by maintaining an interest cover ratio, which is the extent to which the gross margin is available to service borrowing costs. Management consider that a change in interest rates of 1% in the year ending 30th September 2022 is reasonably possible. If the interest rates on the Group's borrowings at the year-end were to increase/decrease by 1%, with all other factors remaining constant, the post-tax profit would be lower/higher by KSh 240,000 (2020: KSh 94,000) respectively.

Currency risk

Currency risk arises on financial instruments that are denominated in foreign currencies. The Group has cash at bank, trade payables and borrowings which are denominated in foreign currencies.

	2021 US\$ KSh' 000	2020 US\$ KSh' 000
Cash at bank	8	301
Trade payables	(298)	(1,553)
Advance payments to suppliers	<u>588</u>	<u>6,852</u>
Net exposure	<u>298</u>	<u>5,600</u>

Management consider that an appreciation of the United States Dollar against the Kenya Shilling of between 5% and 10% in the year ending 30th September 2022 is reasonably possible. If the foreign currencies were to appreciate/depreciate against the Kenya Shilling by 10% with all other factors remaining constant, the post tax profit would be lower/higher by KSh 21,000 (2020: KSh 392,000).

NOTES (CONTINUED)

3. Risk management objectives and policies (continued)

b) Capital management

The Group's objective in managing its capital is to ensure that it supports the development of its business and is able to continue as a going concern, while at the same time maximise the return to its shareholders. The Company is required to have shareholders' funds of at least KSh 100 million.

The board of directors reviews the capital structure on a quarterly basis. As part of this review, the board considers the cost of capital. Based on the review, the board considers, analyses and assesses the gearing ratio to determine the appropriate levels. This ratio is calculated as net debt divided by total shareholders' funds and net debt. Net debt is calculated as total borrowings less cash and cash equivalents. Except for insurance premium financing and bank overdraft the group had no other external debt at the end of the year.

The gearing ratio at the year-end was as follows:

	Group		Company	
	2021	2020	2021	2020
	KSh'000	KSh'000	KSh'000	KSh'000
Shareholders' funds	6,300	40,991	6,300	40,991
Total borrowings, including lease liabilities	38,792	21,442	38,792	21,442
Less: cash and cash equivalents	(59,444)	(77,850)	(59,444)	(77,850)
Net debt	(20,652)	(56,408)	(20,652)	(56,408)
Gearing	Nil	Nil	Nil	Nil

4. Segmental information

The continuing operations of the group comprise a single operating segment. Consequently, no segmental information is included in these financial statements.

	Group		Company

	KSh'000	KSh'000	KSh'000	KSh'000
(a) Items charged				
The following items have been charged in arriving at loss before tax:				
Inventories expensed	68,696	105,655	68,696	105,655
Employee benefits expense (Note 9(b))	35,307	44,349	35,307	44,349
Operating lease rentals expense	690	1,077	690	1,077
Depreciation of right-of-use asset	3,880	3,880	3,880	3,880
Depreciation of equipment	2,112	972	2,112	972

(b) Employee benefits expense

The following items are included in employee benefits expense:

Wages and salaries	34,667	43,138	34,667	43,138
Retirement benefit costs:				
- Defined contribution scheme	568	1,126	568	1,126
- National Social Security Fund (NSSF)	72	85	72	85
	<u>35,307</u>	<u>44,349</u>	<u>35,307</u>	<u>44,349</u>

The average number of persons employed during the year, by category, were:

	2021	2020
	Number	Number
Sales and distribution	23	25
Management and administration	15	12
	<u>38</u>	<u>37</u>

10. Tax (income)/expense	Group		Company	
	2021	2020	2021	2020
	KSh'000	KSh'000	KSh'000	KSh'000
Current income tax	1,421	1,661	1,421	1,661
Deferred tax expense relating to the origination and reversal of temporary differences (Note 18)	641	-	641	-
Deferred tax (income)/expense relating to change in tax rate (Note 18)	<u>(6,347)</u>	<u>17,412</u>	<u>(6,347)</u>	<u>17,412</u>
Tax (income)/expense	<u>(4,285)</u>	<u>19,073</u>	<u>(4,285)</u>	<u>19,073</u>

NOTES (CONTINUED)

10. Tax (income)/expense (continued)	Group		Company	
	2021	2020	2021	2020
	KSh'000	KSh'000	KSh'000	KSh'000
The tax on the group's and company's loss before tax differs from the theoretical amount that would arise using the statutory income tax rate as follows:				
Loss before tax	(38,976)	(49,937)	(38,976)	(49,937)
Tax calculated at a tax rate of 25%/30% (2020: 25%)	(11,206)	(12,484)	(11,206)	(12,484)
Tax effect of:				
Change in tax rate	(6,347)	58,670	(6,347)	58,670
Deferred tax asset not recognised	14,132	(51,038)	14,132	(51,038)
Expenses not deductible for tax purposes	408	796	408	796
Income not subject tax	(1,272)	-	(1,272)	-
Write down of a deferred tax asset	-	23,129	-	23,129
Tax (income)/expense	(4,285)	19,073	(4,285)	19,073

The statutory tax rate was reduced from 30% to 25% for the year of income 2020 by the Tax Laws (Amendment) Act, 2020. The Tax Laws (Amendment) (No.2) Act, 2020 increased the rate back to 30% with effect from 1st January 2021.

11. Earnings per share

Loss per share is calculated by dividing the loss for the year attributable to shareholders by the number of ordinary shares in issue during the year.

	Group		Company	
	2021	2020	2021	2020
Loss for the year (KSh' 000)	(34,691)	(69,010)	(34,691)	(69,010)
Number of ordinary shares (thousands) - Note 12	210,000	210,000	210,000	210,000
Loss per share - basic and diluted (KSh)	(0.17)	(0.33)	(0.17)	(0.33)

There were no potentially dilutive shares outstanding at either 30th September 2021 or 30th September 2020.

12. Share capital	No. of shares '000	Issued and paid up capital KSh'000
Ordinary shares		
At 1st October 2019 and 30th September 2020	210,000	210,000
At 1st October 2020 and 30th September 2021	210,000	210,000

The total number of authorised ordinary shares is 210,000,000 (2020: 210,000,000) with a par value of KSh 1 each.

Eveready East Africa Plc
Financial statements
For the year ended 30th September 2021

NOTES (CONTINUED)

13. Lease liabilities	Group		Company	
	2021 KSh'000	2020 KSh'000	2021 KSh'000	2020 KSh'000
Current	3,839	4,267	3,839	4,267
Non-current	697	3,744	697	3,744
	<u>4,536</u>	<u>8,011</u>	<u>4,536</u>	<u>8,011</u>

The total cash outflow for leases in the year was:

Payments of principal portion of the lease liability	3,475	3,628	3,475	3,628
Interest paid on lease liabilities	843	896	843	896
	<u>4,318</u>	<u>4,524</u>	<u>4,318</u>	<u>4,524</u>

For more information on the nature of the leases entered into and the related right-of-use assets, see Note 15.

14. Provisions for liabilities	Group		Company	
	2021 KSh'000	2020 KSh'000	2021 KSh'000	2020 KSh'000
At start of year	4,424	4,424	4,424	4,424
Reversed during the year	(4,424)	-	(4,424)	-
At end of year	<u>-</u>	<u>4,424</u>	<u>-</u>	<u>4,424</u>

The above provision was in respect of claims from former employees whose contracts were terminated following the restructuring program undertaken in 2014. The case was dismissed by the court on 1st November 2021. Hence the provision was reversed.

15. Right-of use assets - Group and company

	Buildings	
	2021 KSh'000	2020 KSh'000
At start of year	7,759	-
Additions	-	11,639
Depreciation charge	<u>(3,880)</u>	<u>(3,880)</u>
At end of year	<u>3,879</u>	<u>7,759</u>

The right-of-use asset relates to leased warehouses. The current lease for the warehouse is for 4.8 years and expires on 31st October 2022. The lease does not contain any restrictions or covenants other than the protective rights of the lessor and does not carry a residual value guarantee.

For information on the related lease liabilities, see Note 13.

NOTES (CONTINUED)

16. Equipment

Group and company	Furniture and fixtures KSh'000	Computers KSh'000	Motor vehicles KSh'000	Total KSh'000
At 1st October 2019

For the year ended 30th September 2021

NOTES (CONTINUED)

18. Deferred income tax - group and company (continued)

The deferred tax asset has not been recognised on tax losses carried forward amounting to KSh 1,057,847,000 (2020: KSh 1,006,791,000) due to lack of certainty of availability of future taxable profits against which such tax losses could be utilised. Under the Kenyan Income Tax Act, with effect from 1 July 2021, the tax losses can be carried forward indefinitely.

The company continues to recognise deferred tax assets on provision for bad debt and obsolete inventories amounting to KSh 33,128,000 as of 30th September 2021. The directors are of the opinion that the balances will be recovered.

	Group		Company	
	2021	2020	2021	2020

Group and company (continued)

iv) Key management compensation

The remuneration for key management during the year was as follows:

Salaries and other benefits	14,158	16,345
-----------------------------	--------	--------

v) Directors' remuneration

Salaries	6,134	9,469
Fees for services as directors	3,868	2,115
	10,002	11,584

25. Contingencies

Bank guarantees	7,700	8,600
-----------------	-------	-------

In August 2021, the company received a demand notice for an amount of KSh 61.7 million by the Kenya Revenue Authority (KRA) for principal tax, penalties and interest on outstanding income tax - corporate, VAT, withholding tax and PAYE for the period starting December 2013 to February 2021. The company is currently engaged with KRA with the necessary reconciliation and supporting documents to object to the demand.

26. Going concern

During the year ended 30th September 2021, the Company made a loss of KSh 34,691,000 (2020: KSh 69,010,000) and as at that date, the company's current liabilities exceeded current assets by KSh 35,853,000. The financial statements have been prepared on a going concern basis on the assumption that the turnaround strategies adopted by

The Directors are cognizant of the continued operating loss from operations. They, affirm that in view of the current business outlook, they have no reason to believe that the company will not be a going concern for at least the next twelve (12) months from the balance sheet date.

In the second half of the year the Company redefined its supply chain strategy to align with global trade flows, considered new trade agreements with on boarding of major suppliers from the South African Development Community (SADC) and Common Market for Eastern and Southern Africa (COMESA) to mitigate the supply chain risk. The lead time has been reduced to (14) days from previous (120) days and projected to improve the car batteries business which contributes 80% of the revenue. This will impact stock availability, support cash flow, and contribute to the growth of the business. It is further pursuing other avenues i.e., India and South Korea. The credit period from these suppliers has also been bettered from the previous terms that required the company to make advance payments on order and this is ideated to help relieve the working capital.

NOTES (CONTINUED)

27. New and revised standards and interpretations which have been issued but are not yet effective

The group has not applied the following new and revised standards and interpretations that have been published but are not yet effective for the year beginning 1st October 2020.

Amendments to IAS 37 titled Onerous Contracts - Cost of Fulfilling a Contract (issued in May 2020)

The amendments clarify that for the purpose of assessing whether a contract is onerous, the cost of fulfilling the contract includes both the incremental costs of fulfilling that contract and an allocation of other costs that relate directly to fulfilling contracts. They are effective for contracts for which an entity has not yet fulfilled all its obligations on or after 1 January 2022.

Amendments to IAS 16 titled Property, Plant and Equipment: Proceeds before Intended Use (issued in May 2020)

The amendments, applicable to annual periods beginning on or after 1 January 2022, prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing an asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss.

Amendment to IFRS 1 titled Subsidiary as a First-time Adopter (issued in May 2020 as part of the Annual Improvements to IFRS Standards 2018-2020)

The amendment, applicable to annual periods beginning on or after 1 January 2022, provides a subsidiary that becomes a first-time adopter later than its parent with an exemption relating to the measurement of its assets and liabilities. The exemption does not apply to components of equity.

Amendment to IFRS 9 titled Fees in the '10 per cent' Test for Derecognition of Financial Liabilities (issued in May 2020 as part of the Annual Improvements to IFRS Standards 2018-2020)

The amendment, applicable to annual periods beginning on or after 1 January 2022, to IFRS 9 clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability.

Amendment to IAS 41 titled Taxation in Fair Value Measurements (issued in May 2020 as part of the Annual Improvements to IFRS Standards 2018-2020)

The amendment, applicable to annual periods beginning on or after 1 January 2022, to IAS 41 removed the requirement to exclude taxation cash flows when measuring fair value. This amendment aligned the requirements in IAS 41 on fair value measurement with those in other IFRS Standards.

IFRS 17 Insurance Contracts (issued in May 2017)

The new standard, effective for annual periods beginning on or after 1st January 2023, establishes principles for the recognition, measurement, presentation and disclosure of insurance contracts issued. It also requires similar principles to be applied to reinsurance contracts held and investment contracts with discretionary participation features issued. The objective is to ensure that entities provide relevant information in a way that faithfully represents those contracts. The University does not issue insurance contracts.

Amendments to IAS 1 titled Classification of Liabilities as Current or Non-current (issued in January 2020)

The amendments, applicable to annual periods beginning on or after 1 January 2023, clarify a criterion in IAS 1 for classifying a liability as non-current: the requirement for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period.

Amendments to IFRS 10 and IAS 28 titled Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (issued in September 2014)

The amendments, applicable from a date yet to be determined, address a current conflict between the two standards and clarify that a gain or loss should be recognised fully when the transaction involves a business, and partially if it involves assets that do not constitute a business.
