chairman's statement

FOR THE YEAR ENDED 31 JULY 2000

GENERAL

The company has had a more difficult year which ended on 31st July 2000 in keeping with the general economic situation prevailing in Kenya.

SALES

Local and export sales were at satisfactory levels throughout the financial year.

DEVELOPMENTS

The production facilities of the company have performed well to meet the demands of our customers and plant and machinery have been maintained to a high standard. During the year it became necessary to address the needs of certain of our customers for even greater purification of our main product and a substantial investment has been made in a catalytic converter to achieve this result. The plant will be operational early in the New Year and should stand us in very good stead for the future.

CAPITALISATION (BONUS) ISSUE

It is proposed, subject to the approval of the Capital Markets Authority, to make a capitalisation issue of one new share for every five shares held. The new shares will be entitled to the final dividend.

DIVIDENDS

An interim dividend of 22% (1999 - 20%) was paid in April, 2000. The Directors have recommended that a final dividend of 33% (1999 - 30%) be paid in December, 2000.

FUTURE PROSPECTS

East African Breweries Limited is one of our main customers and they have taken a policy decision to be self sufficient in regard to their requirements for carbon dioxide. This will certainly impact on our results at least initially but it is still early to assess the full extent of this development and in any event we do not expect our ability to maintain dividend levels to be affected nor to erode our very healthy cash position.

STAFF

The Board of Directors and Shareholders wish to extend their appreciation to all our staff for their good work in a year which required extra commitment on their part.

11th October 2000

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and the group as at the end of the financial year and of the profit or loss of the group for that period. In preparing those financial statements, the directors are required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgements and estimates that are reasonable and prudent;
- State whether applicable accounting standards have been followed;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that each company in the group will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of each company in the group and to enable them to ensure that the financial statements comply with the Companies Act. They are also responsible for safeguarding the assets of the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

We have audited the financial statements on pages 9 to 24 and have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

Respective responsibilities of directors and auditors

As described on page 7, the directors are responsible for the preparation of the financial statements. Our responsibility is to express an opinion on those financial statements based on our audit.

Basis of opinion

We conducted our audit in accordance with International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by the directors, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Opinion

In our opinion:

1 ACCOUNTING POLICIES

The financial statements are prepared in accordance with and comply with International Accounting Standards (IAS) which have been adopted with effect from this accounting period. Previously the financial statements were prepared under Kenya Accounting Standards. This change arises from the adoption of IAS by the Institute of Certified Public Accountants of Kenya with a requirement that the change be effected for accounting periods commencing on or after 1 January 1999.

The principal accounting policies adopted in the preparation of these financial statements are set out below:

BASIS OF PREPARATION

The financial statements are prepared under the historical cost basis of accounting, modified to include the revaluation of certain property, plant and equipment.

CONSOLIDATION

The group financial statements reflect the results of the consolidation of the financial statements of the company and its subsidiary, Carbacid (CO₂) Limited, whose financial year ends on 31 July.

TURNOVER

Turnover represents the value of carbon dioxide gas and dry ice invoiced to customers, excluding value added tax.

INVENTORIES

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and labour, together with the relevant production overheads.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at cost or valuation less depreciation.

DEPRECIATION

Depreciation is calculated to write off the cost or valuation of property, plant and equipment in equal instalments over their estimated useful lives at the following annual rates:

Leasehold land	Over the remaining period of the lease
Buildings	Over 50 years, or remaining period of lease whichever is less
Boreholes	5%
Roads	10%
Motor vehicles	10% - 25%
Plant and equipment	5% - 33.3%

INVESTMENT IN SUBSIDIARY COMPANY

Investment in subsidiary company is stated at the net asset value of the subsidiary at the balance sheet date.

**notes to the
financial statements**
(continued)

FOR THE YEAR ENDED 31 JULY 2000

1 ACCOUNTING POLICIES (continued)

QUOTED INVESTMENTS

Investments are stated at cost or at valuation where there has been a permanent diminution in value of the investment.

TAXATION

Current taxation is provided for on the basis of the results for the year, as shown in the financial statements, adjusted in accordance with tax legislation.

Deferred income tax is provided for, using the liability method, for all temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes. Currently enacted tax rates are used to determine deferred income tax.

This represents a change in accounting policy to comply with International Accounting Standard No 12 (Revised). Previously, deferred income tax was provided for when, in the opinion of the directors, a liability or asset was expected to crystallise in the foreseeable future. The change in policy has been applied retrospectively.

RETIREMENT BENEFIT OBLIGATIONS

The group operates a defined contribution pension scheme for eligible non-unionisable employees. The scheme is externally administered and is funded by contributions from both the company and employees.

The group also operates an unregistered non-contributory scheme for its senior management.

The group also contributes to the statutory National Social Security Fund. This is a defined contribution scheme registered under the National Social Security Act. The company's obligations under the scheme are limited to specific contributions legislated from time to time and are currently limited to a maximum of Sh 80 per employee per month.

The group's obligations to these schemes are recognised in the income statement as they fall due.

FOREIGN CURRENCIES

Assets and liabilities expressed in foreign currencies are translated into Kenya shillings at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated at the rates ruling at the dates of the transactions. Gains and losses on exchange are dealt with in the income statement.

COMPARATIVES

Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year. In particular, comparatives have been adjusted or extended to take into account the requirements of the International Accounting Standards.

With the exception of the effects of adoption of IAS 12 on income taxes (Revised), no other accounting policy changes have a significant effect on the financial statements.
